DETAILED ACTION

1. Claims 1-52 have been considered.

Election/Restrictions

2. Restriction to one 1-2 of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20 and 39-52 drawn to a method, and a system for managing a sponsorship, classified in class 705, subclass 80.
 - II. Claims 21-38 drawn to a method, and a system for content access management, classified in class 707, subclass 1.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as access protection based on approval and denial of a request depending on sponsorship by a third party. Invention II has separate utility such as terms and conditions related to use of data within a database containing an agreement (licensing) or a contract to access a data contained in a database. See MPEP § 806.05(d).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for any one Group is not required for any other Group, restriction for examination purposes as indicated is proper.
6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of

Art Unit: 3621

inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
